

The Caravan Club of Southern Africa was established in 1947

Boland Region is one of 6 regions representing the Western Cape. Boland is one of the oldest regions within the Western Cape, originated from Cape Western, and was established on 29 August 1981. The first Boland rally was at Ceres over the weekend of 07th & 08th November 1981.

CCSA Boland Region's Mission is to make caravanning a way of life. One rally per month ensures socializing with friends in a safe environment. No responsibilities other than to relax and enjoy nature are required from the members & guests. On a Sunday morning at 10:00 we get together to share positive thoughts where after we enjoy coffee or tea with a tasty treat, all contributed by the campers.

The friendships are seen as extended family. We don't strive to be the biggest or the most active Region, but to rather be the group that cares for each other building strong relationships around the campfires.

In the past Boland's members were a more senior and retired group of campers. Over the years this has changed with younger members joining, who all agree with the Boland region's values.

We take part in contributing to one charitable organisation per annum.

Contribution from a member:

I am so very pleased that the first region on the CCSA website that I phoned to make enquiries was Boland.

At that time the region was still small and everyone was so welcoming and friendly and I have had the privilege of getting to know such awesome people and watch Boland grow. They gave me the freedom to camp safely and did not put pressure on me to join all sorts of activities that I had no interest in. Thank you Boland!
